SUMMARY

My goal is to become a successful Full Stack developer who is able to create innovative solutions and solve complex technical tasks. I am always open to learning new things and constantly developing. I am open to meeting and discussing cooperation. Feel free to contact me

PROJECT EXPERIENCE

● Bookshelf

[HTML5 · CSS · SCSS · JS · REST APIs · Parcel · Figma · GitHub · Stylelint · ESLint]

Team project. In this project, I worked on a responsive menu that has a theme switcher and a login button, which I combined with login logic that another team member was responsible for. A button to scroll to the top of the page was also made.

● Simply chocolate

[HTML5 · CSS · SCSS · JS · Vite · Stylelint · Figma · GitHub · HTML]

Team project. Worked on the feedback section (chocolate is loved), designed in the form of a carousel and a modal window of this section.

● WebStudio

[HTML5 · CSS · SCSS · Stylelint · Figma · GitHub]

An individual project in which he consolidated his basic layout skills
